ance Notes on Codes and Abbreviations" appearing at the begin-
ning of each regular issue of the PCT Gazette.

(54) Title: FIREARM SIMULATION DEVICE

(57) Abstract: A method and apparatus for simulating the cycle and recoil of a firearm. The apparatus and method comprising, firearm device (10) which includes a source of compressed gas (11), mechanism (12) configured to release gas from the source of compressed gas, and a piston (14) configured to respond to the force of the compressed gas. Preferably, the firearm device of the present invention features a barrel (13), a magazine (15), a firing pin (16), a chamber (18) for readily accommodating a piston, a piston (14) and a plurality of vents (20).
